**Single Family Home with Spacious Yard and Stunning Views**

Beautifully designed, sunny four bedroom home in a family neighborhood, close to schools, parks and numerous trails. The heart on the home is on the main level with an open concept kitchen, dining and living area accented by a cozy, wood burning fireplace. This level also has a master bedroom with a luxurious ensuite, another bedroom plus a den. It features newly refinished hardwood flooring throughout. The lower level walks out onto a lush, private and fully fenced-in backyard, and has a sprawling family room, two more bedrooms and a second kitchen.

The top floor is ideally set up with a loft, which can be used as an office or reading area. The home is complete with an attached double car garage, which connects through a mud room/laundry area into the home. With a convenient floorplan, plenty of space for a family and stunning mountain views, this home is not to be missed.
